

Phillips' Monthly Round Up!

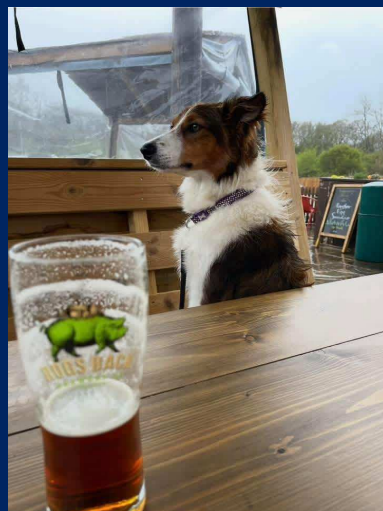

Good evening to you all. I'm getting my rambles in early this month as one is off to Majorca at the end of the month. Just as the weather perks up I'm going somewhere that is colder than the UK. FABULOUS!

Anyway, the sun and rain have done wonders for the field that has been reseeded and refeed god knows how many times. It's almost looking wild in there! Labour of love! We have opened it all back up again and will recover from our trauma for a while before we redo the other side!!

Karen's Re-loved shop is also up and running and off to a flying start with items already being sold. This is a fabulous idea by her and it helps everyone out. The Shop is located on our FB Page and all stock is available to see and collect in The Shed. We are also more than happy to send stuff out at an extra cost. See how it works on the next page.

Support your dog's comfort & mobility — exclusive 20% off for HKM members

Hi HKM Dogs members,

If your dog enjoys sports sessions and regular training with us, you'll know how much they rely on strength, coordination and stamina to perform at their best. all dog sports work challenges both body and mind. Repeated jumps, tight turns and controlled stops place real demand on joints, connective tissue and recovery. While this builds a capable, confident dog, it also highlights the importance of providing them with optimal nutritional support behind the scenes.

Daily nutrition is the foundation for their long-term wellness — supporting better energy, mobility, immunity and recovery now, whilst also mitigating the risk of some of the most common complaints which might arise in the future. How we look after our dogs today will contribute to their health as they get older.

Doggy Vits makes it simple to add comprehensive daily support, with a premium natural formula designed to complement wet, dry or raw diets. Formulated by a vet and nutritionist and endorsed by industry experts, Doggy Vits is designed for active dogs who need consistent support.

"Doggy Vits is the most bioavailable natural supplement I have seen — packed with nutrients to help dogs feel healthier and happier."

Caroline Griffith — Co-founder, Association of Pet Nutrition Consultants

Each daily sachet delivers a unique blend of 18 essential nutrients, including wild marine collagen and organic superfoods, to support mobility, recovery and overall vitality. Simply add one sachet to your dog's food each day (suitable for dry, wet or raw feeding).

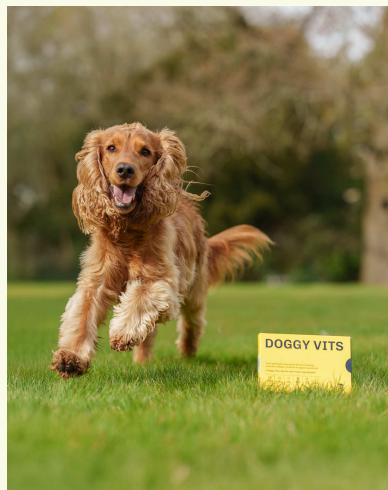

Whether your dog is building foundations or enjoying regular agility sessions, consistent daily support helps maintain comfort, mobility and long-term wellbeing.

EXCLUSIVE OFFER FOR HKM MEMBERS ONLY

HKM Dog Park members can receive 20% off all orders — including an additional 20% off subscriptions — using code HKM20 at checkout. On subscription this works out at as little as 70p each day for each sachet being served!

If you're considering extra daily nutritional support for your dog, try Doggy Vits and see the difference in comfort, movement and vitality.
